Approximately 75 minutes

LEVEL: Intermediate to Advanced

DESCRIPTION: The key to effective accompaniment on the dulcimer is developing strumming technique. Ready to get beyond bum-diddy's and other simple strumming? In this workshop, you'll be practicing some chops that will open possibilities in your playing. It's not about picking out the melody; it's all about coordinating effective strumming in both directions with staccato effects. In addition to learning some great percussive patterns, you will apply them to songs like "Proud Mary," "Hand Jive," and "Sloop John B."
